

Quanis Professional Aging Care

PATENTED JAPANESE MICRO-NEEDLE TECHNOLOGY

Revolutionizing Dermal Absorption

A non-invasive drug delivery system alternative to clinical injections.
By utilizing micro-needles made of crystallized Hyaluronic Acid to penetrate the skin's outer barrier, this technology ensures 100% of the active ingredients are absorbed directly into the deeper layers—providing a powerful, targeted alternative to standard topical serums.

Dermafiller Premier

Advanced Periocular Care

Specifically engineered for the sensitive eye zone. These high-density patches provide needle-free delivery of medical-grade ingredients.

- ✓ **3,800 Micro-needles:** Ultra-high density per dose.
- ✓ **Vitamin A Triple Complex:** Retinol, Retinal, and Bakuchiol.
- ✓ **Dual Hyaluronic Acid:** Immediate and sustained hydration.

Premier: Full Ingredients (INCI)

Ingredient	Function
Sodium Hyaluronate	Basis of micro-needles; Intense Hydration
Hydrolyzed Collagen	Structural Support; Skin Firming
Ectoin & Adenosine	Skin Protection and Anti-Wrinkle Stimulant
Retinyl Palmitate / Retinoate	Advanced Vitamin A for Cellular Turnover
Niacinamide (Vitamin B3)	Brightening and Barrier Reinforcement
3-O-Ethyl Ascorbic Acid	Stable Vitamin C Derivative for Radiance

Premier Performance

Visual Revitalization

Reduces the appearance of bags, dark circles, and fine lines around the delicate eye area.

Gentle Formulation

Free from fragrances, colorants, mineral oils, parabens, and alcohol. Dermatologically tested for sensitive skin.

Purity Guaranteed

100% Serum content. No synthetic preservatives or psychoactive substances.

Dermafiller Smile

Intensive Nasolabial Support

Engineered for the "Smile Zone," where skin is thicker and folds are deeper. Smile provides maximum volume and density.

- + **4,200 Micro-needles:** Maximum needle density for deep folds.
- + **Hydroxyapatite:** Stimulates natural collagen and densifies tissue.
- + **3D Plumping:** Two types of specialized Hyaluronic Acid.

Smile Zone Transformation

Volumizing Effect

Smooths deep creases and returns definition to the nasolabial triangle.

Tissue Densification

Hydroxyapatite strengthens the skin foundation, providing a "filler-like" result from within.

Rapid Restoration

Suitable for intensive 1-2 times weekly courses to maintain contour and health.

Selection Guide

Metric	Dermafiller Premier	Dermafiller Smile
Focus Zone	Eyes & Crow's Feet	Nasolabial Folds / Mouth
Needle Count	~3,800 per dose	~4,200 per dose
Core Active	Vitamin A (Retinol Complex)	Hydroxyapatite (Densifier)
Primary Benefit	Brightness & Smoothing	Lifting & Volume Filling
Pack Size	4 Bags (2 Sheets each)	3 Bags (2 Sheets each)

How to Use: Overnight Protocol

Cleanse

Prepare skin with standard lotion.

Apply

Place patches on target area; press vertically.

Sleep

Leave on for 5–8 hours overnight.

Reveal

Remove to find skin hydrated and plump.

Recommendation: 1–2 times per week for intensive aging care.

Manufacturing Integrity

CosMed Pharmaceutical Co., Ltd.

CosMED maintains medical-grade standards for all microneedle production.

 **Crystallized Serum:** Solid-state delivery.

 **Clean Formula:** No aerosols or Ethanol.

 **Origin:** Made in Japan.
